

On 25th June 2007 Hull and it's surrounding villages witnessed unprecedented amounts of rainfall, rivers and dykes breaching their defences and miles of drainage systems failing. All this culminated in thousands of citizens along with their beloved homes becoming the victims of never seen before flooding.

The flood water offered no mercy and took every opportunity to gain access everywhere it could. Unbeknown to us at the time we too were to become know as "flood victims."

Whilst not evident on the day, it soon became apparent that our family home of 23 years was displaying alarming signs of damage caused by the floods - these tell tale signs were confirmed and our next 7 months of displacement began.

We move out, and SLK moved in. We entrusted our home to strangers who were soon to become valued and trusted acquaintances. From the outset of what was to become a massive project Bryn and his team were always on hand. They were able to offer practical advice and listening ears when ever necessary.

Our project was only one of many for SKL in Hull, but we always felt we were treat as individuals and our personal issues were always respected as such.

To strip and refurbish a large house takes the hands and skills of many professionals - SKL have a full team of these. Each team that undertook their task in our home did so ensuring that they always worked in the most thorough, effective and professional manner. At no stage during the past 7 months did we ever feel that our home was misused or abused and their level of integrity or honesty was never brought into question.

Every team needs a leader, SLK in Hull have a first class one. Steve Kaye, is a real gem in the SKL crown.

He is everything you could wish for in someone that is directing operations in your home. Not wishing to embarrass Steve, we wish to note that we found him professional, polite, practical, skilful, tactful and approachable at all times. We have valued all the help and assistance he has shared with us during the past few months.

We are no longer displaced, but are now back in our new home. May we please take this opportunity to thank everyone that was involved in refurbishing our house and making all our plans come to fruition.

Bryn, Steve and all the guys under the umbrella of SLK are all first class and professional tradesmen and we would have no issues with recommending them to anyone who is looking for building and decorating work to be completed.

Wishing you all well with future ventures.

Mike and Carol Brooks
